

FREQUENTLY ASKED QUESTIONS

1) How do the Energy patches work if nothing enters the body?

These are non-transdermal patches with a new technology that gently stimulates acupuncture points to improve the body's energy flow. No supplements, stimulants or needles are used.

2) Where do you apply the patches for the best results?

The patches will work in many locations. Please refer to the diagrams inside for placement options.

3) How many patches can I wear at one time?

Beginners should only use one set of patches at a time. Please refer to the LifeWave website for more information.

4) How safe are the patches to use?

Acupuncture has been utilized for thousands of years as a method for relieving pain and improving the quality of life. While we have shown our products to be safe, if you feel any discomfort at anytime, remove the patches and drink extra water.

5) Have these patches been independently tested?

Our exclusive non-transdermal patch system utilizes new technology to gently stimulate acupuncture points, literally improving the flow of energy in the body. Clinical studies prove this method increases your body's energy and stamina within minutes. For more information, please visit www.lifewave.com/research.asp

6) How long can I wear the patches?

It's recommended you wear the patches no more than 12 hours per day. Do not reuse patches.

7) Can anyone use Energy Enhancer?

If you have a health condition or are in doubt please consult your physician before using Energy Enhancer. Do not use if you are pregnant or nursing.

8) What is acupuncture and what are its benefits?

Acupuncture is a type of Oriental healing art based on ancient Chinese and Japanese medicine, for the purpose of promoting good health.

9) What will I feel when wearing the Energy patches?

You should notice a very constant and stable level of energy during your day. Because acupuncture helps to remove toxins from the body, you may experience detoxification symptoms such as a sore throat, headache, fatigue or nausea. If this occurs simply remove the patches and drink extra water.

10) Are there any drugs or stimulants in the patches that are entering the body?

No. LifeWave patches DO NOT contain any harmful drugs or stimulants. The patches are designed to apply a mild and temporary pressure to acupuncture points that are known to improve the flow of energy through the body. No magnets or needles are used.

11) Can I wear the Energy patches with other LifeWave patches?

The Energy patches may only be worn with the Glutathione, Carnosine and SP6 patches. DO NOT wear the Energy patches with IceWave or Silent Nights.

TESTIMONIALS

"After completing my eligibility at LSU, I played professionally for 5 years in both the Italian and USA Professional Indoor Leagues. Not yet ready to retire, I headed to the beach and spent another 13 years on the Pro Beach Tour. Towards the end of my career, I got to experience the undeniable positive effects of this product for myself.

As an athlete, I recommend all of LifeWave's products... this is the real deal!"

- Gayle Stammer, Pro Volleyball Player/Coach

"The hectic schedule of the European Seniors Tour left me flat and exhausted. The results of the LifeWave patches seem to be extraordinary- I felt totally in control, energized, able to think clearly and calmly.

I can only attribute my enhanced levels of energy to the patches."

NEW ENERGY TECHNOLOGY

INTRODUCING ENERGY ENHANCER

What if there was a way to increase your body's energy levels without having to take stimulants. Now you can with LifeWave.

Our exclusive non-transdermal patch system utilizes new technology to gently stimulate acupuncture points, literally improving the flow of energy in the body. Clinical studies prove this method increases your body's energy and stamina within minutes.

NEW ENERGY TECHNOLOGY

We're all accustomed to thinking that we have to put something into our body (like vitamins) to improve our health. While proper nutrition, water and exercise are a necessary part of any healthy lifestyle, our bodies also require a continuous flow of energy. For example, our brains and nerves transmit electrical signals to our muscles to cause them to use stored chemical energy to contract.

It's been known for thousands of years that specific frequencies of light can cause specific changes within the human body. When we go out in the sun, a frequency of light causes our body to make Vitamin D. Another frequency of light (UV) will cause our body to make melanin, the chemical that gives us a sun tan.

Energy Enhancer patches utilize this knowledge to stimulate acupuncture points on the body for improving the flow of energy. Clinical studies prove that this method increases your energy and stamina by over 20% just within a few minutes of use!

ENERGY ENHANCER INSTRUCTIONS

Place one set of Energy patches on the body, using one of the locations shown. Always place the WHITE patch on the RIGHT side of the body, the TAN patch on the LEFT side of the body. Apply the patches to clean, dry skin in the morning. Patches may be worn for up to 12 hours before discarding. Do not reuse patches once removed from the skin. Be sure to drink plenty of water while using this product.

WHAT IS ACUPUNCTURE?

Acupuncture is a type of Oriental healing art based on ancient Chinese and Japanese medicine. A practitioner will typically stimulate acupuncture points on the body with needles or pressure to improve sleep, relieve pain and discomfort, and promote good health.

The self-adhesive Energy patches utilize the principles of Oriental medicine and needleless acupuncture to gently stimulate points on the body that have been used to balance and improve the flow of energy in the human body for thousands of years. The result is a natural way of improving the quality of your life without any drugs, stimulants or needles entering the body.
